

## Mental Health Enrolled Nurse Workforce Development

The Centre for Mental Health Learning (CMHL) is the central agency for public mental health workforce development in Victoria, supporting access to quality, contemporary learning and development opportunities for the public mental health workforce in Victoria.

### Statewide Mental Health Enrolled Nurse Educators

We are Mental Health Enrolled Nurses (MHENs) providing support and education to other MHENs in Victoria. As key members of the CMHL, we work to facilitate connections between MHENs across the state, and provide the most up-to-date training to progress the workforce.

### Workforce Priorities

We engage with MHENs across the sector to identify the priorities of our workforce. Areas identified include physical health and wellness, non-pharmacological interventions, reducing restrictive interventions, and MHEN leadership.

We believe in the unique and important role of the MHEN, and love to speak with MHENs from all levels and experiences.

### What is unique about Enrolled Nursing?

Experts at building rapport and engaging with consumers

Promoting the consumer voice and advocating for consumer preferences

Contributing hands-on and practical skills as a vital member of the care team

Developing respectful relationships with consumers, carers and families each day

## Mental Health Enrolled Nurse Practice Network

The Mental Health Enrolled Nurse Practice Network is an expert group established by the Centre for Mental Health Learning in 2021 to support the professional development of the Victorian MHEN workforce. Membership aims to include MHENs from each Area Mental Health Service and Forensicare. The group engages in reflective practice, collaborative planning, and promotes cross-service networking. To get in contact with your MHEN representative, or to express interest in joining the network, please email [en.educators@cmhl.org.au](mailto:en.educators@cmhl.org.au)

## AMHS Training Calendar

The mental health workforce can access training and resources to meet their workforce development needs through CMHL. MHENs are encouraged to register for trainings in areas of interest. Events are online and face-to-face, part- and full-day, and cover topics such as supervision training, leadership development, therapeutic interventions, supported decision-making, and more. Look out for the MHEN specific training we offer.
