

CMHL Structure and Functions

CMHL Strategic Leadership

(whole of mental health workforce, including lived experience workforces)

\$

Engagement & Communication

Identify, prioritise & engage with all relevant stakeholders

Facilitate sector and cross-sector communications to all stakeholders, i.e. via newsletters

Grow CMHL profile to promote functions, activities & training

Develop and maintain effective mechanisms for consultation & feedback

Create and maintain statewide networking structures & processes

Alignment & Coordination

Identify & align existing mental health training investments

Identify training gaps and broker solutions

Identify duplication and support collaboration as a resolution

Work with exisiting statewide structures, i.e. training providers, committees

Evidence & Quality

Identify and use relevant data sets to inform CMHL functions

- AMHS data
- workforce data
- training data
- DHHS data

Establish baseline 'quality criteria' for education & training approaches

Use best available evidence to inform workforce development initiatives

Develop & disseminate resources that target priority areas

Develop & implement evaluation strategies for CMHL functions & relevant statewide initiatives

Innovation & Systems change

Create thought leadership hubs

Use established, and identify new, structures within AMHS for knowledge translation (KT)

Identify relevant & practical KT methods

Develop resources & tools for KT implementation

Consult regarding systems assessment & solutions

Elements of Collective Impact

Underpinning conceptual model
